4.4 Grading Scheme and, if available, grade distribution guidance

The grading scheme used by the University is based on percentages. Components and modules are given a mark between 0% and 100%; in cases where a module is assessed on a Pass/Fail basis only the mark column in Section 4.3 will be blank.

The module pass mark is 40% in respect of Levels 3, 4, 5 and 6. The 40% pass mark also applied to Level 7 modules registered in years prior to 2019/20, with a 50% pass mark adopted for Level 7 modules from 2019/20. In respect of the information shown in 4.3, this means that Level 7

modules with a 'year' prior to 2019/20 were subject to a 40% pass mark and Level 7 modules with a 'year' from 2019/20 were subject to a 50% pass mark. This change in pass mark simply reflects the adoption of a new set of Level 7 marking criteria which aligned the pass threshold to a higher numerical mark (50 rather than 40). The standard of work required to achieve a pass did not change as a result.

The module pass mark for Level 7 modules on the MEng programme has been 50% since the programme began in September 2014.

In certain specified circumstances at levels 3, 4, 5 and 6, failure in a module may be condoned, with the module credits awarded; where condonement has been applied, a result of Condoned will be displayed.

4.5 Overall Classification of the Qualification (in original language)

The University classifies Bachelor (Honours) Degrees and Integrated Masters Degrees as follows:

First Class Honours (1st)
Upper Second Class Honours (2.1)
Lower Second Class Honours (2.2)
Third Class Honours (3rd)

Foundation Degrees, Masters Degrees and Postgraduate Diplomas may be awarded with Distinction or Merit.

The award of Masters Degree and Postgraduate Diploma with Merit was introduced for awards made after 1 August 2012; prior to this date Masters Degrees and Postgraduate Diplomas were only awarded with Distinction.

Foundation Degrees awarded after 31 October 2013 may be awarded with Distinction or Merit; Distinction and Merit were not applied to Foundation Degrees awarded prior to this date.

No other awards of the University of Chester are classified or awarded with Distinction or Merit.

Further information on how awards are/were classified can be found on the University's Diploma Supplement/HEAR web pages

INFORMATION ON THE NATIONAL HIGHER EDUCATION SYSTEM

In the United Kingdom (UK), Higher Education (HE) is a devolved matter, with political oversight provided by the UK Government and Parliament (England), the Scottish Government and Parliament (Scotland), the Welsh Government and Parliament (Wales), and the Northern Ireland Executive and Assembly (Northern Ireland). HE provision is offered by many different types of institution that are active in teaching, research, and scholarship. The term includes all publicly funded universities and other HE institutions, alternative HE providers that offer HE courses but do not receive annual public funding, and those further education colleges in England and Wales which offer HE level courses.

Degree Awarding Powers and University Title

The power to award degrees is regulated by law in the UK. Those organisations granted the power to award HE degrees are referred to as 'Recognised Bodies', and a full list of these is published by the UK Government. It is an offence for an organisation to purport to award, or to offer a UK degree, unless it is authorised to do so. Degree-awarding bodies often work with other providers that do not have degree awarding powers to deliver provision which leads to a qualification of the degree-awarding body. The Listed Bodies Order confirms the providers that do not have the powers to award their own degrees, but offer programmes that lead to a degree of a Recognised Body (see <https://www.gov.uk/check-a-university-is-officially-recognised>).

Qualifications

There are two parallel frameworks for HE qualifications of UK degree-awarding bodies, one that applies to Scotland and one that operates in the rest of the UK:

- The Framework for Higher Education Qualifications of Degree-Awarding Bodies in England, Wales and Northern Ireland (FHEQ)
- The Framework for Qualifications of Higher Education Institutions in Scotland (FQHEIS).

These frameworks are the principal national reference points for academic standards in UK HE. They meet the expectations of the Bologna Declaration and thus align with A Framework for Qualifications of the European Higher Education Area (QF-EHEA).

Quality Assurance

Academic standards are established and maintained by HE institutions themselves, using an extensive and sophisticated range of shared quality assurance approaches and structures. Standards and quality in institutions are underpinned by the use of external examiners, standards agreed and recognised by the sector, by the activities of the Quality Assurance Agency for Higher Education (QAA), and in professional areas by relevant professional, statutory and regulatory bodies. The sector standards are overseen by the UK Standing Committee for Quality Assessment, formed from partner organisations, providers and national HE regulators

A cornerstone of quality arrangements across all four nations is **the UK Quality Code for Higher Education**, which was revised in 2018. The Quality Code articulates fundamental principles that apply to HE quality across the UK, irrespective of changing national contexts. It incorporates Expectations and Core Practices which are applicable to all providers in the UK, and Common Practices which only apply to Scotland, Wales and Northern Ireland, and can be accessed at <https://www.qaa.ac.uk/quality-code>.

All institutions that possess degree-awarding powers of any kind must undergo quality assurance review activity as required by the relevant government:

England

The Higher Education and Research Act 2017 (HERA) drives the regulatory and legal requirements of HE in England. The legislation can be found at <http://www.legislation.gov.uk/ukpga/2017/29/contents/enacted>. This Act established the Office for Students (OfS) and gave it responsibility for regulating the English HE sector. Its primary focus is the student interest in its duty as a market regulator. The OfS is responsible for risk-based monitoring of indicators relating to the baseline quality and standards of provision. It maintains the Register of HE providers in England, and implemented a regulatory framework in February 2018: <https://www.officeforstudents.org.uk/publications/securing-student-success-regulatory-framework-for-higher-education-in-england/>.

Degree-awarding bodies in England must be registered with the OfS and meet all ongoing conditions of registration in order to retain degree-awarding powers. The OfS has express powers to revoke degree-awarding powers for HE providers in England if conditions of registration are not maintained. The QAA is the designated body responsible for carrying out the quality and standards assessment functions for English HE, as set out in Section 23 of the HERA. Details of how the QAA carries out Quality and Standards Reviews on behalf of the OfS can be found at <https://www.qaa.ac.uk/reviewing-higher-education/types-of-review/quality-and-standards-review>.

Northern Ireland

Funding for HE is directly provided by the Department for the Economy in Northern Ireland. Northern Ireland is currently operating under the QAA's 2016 Higher Education Review method, with the expectation of introducing an enhancement-led model as part of any future reforms.
